

Excel's Guarantee of Fit, Form & Function

Excel inspects and re-inspects every part that leaves our dock. All Excel parts are backed by our Fit, Form and Function guarantee which assures our customers that Excel parts will perform to the highest standards. We know that our parts are used in mission critical equipment and that your success depends on our quality control.

From our strict metallurgical standards in our foundry to our exacting turning and machining processes - all the way through to our inspection department - Excel's staff of skilled craftsmen strive to make every part perfect in every way.

Fit:

Excel products are guaranteed for dimensional accuracy to conform to the operational requirements of the application for each part.

Any accurately identified component part that does not fit properly into it's machine / assembly will be fully refunded - no questions asked.

Form:

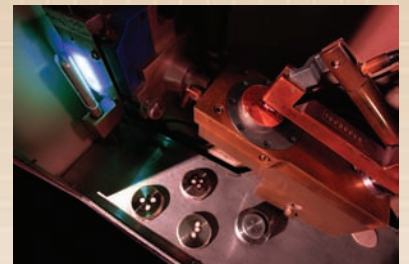

Excel products are guaranteed to conform to all necessary forms including, but not limited to: metallurgy, heat treatment, surface conditioning and surface finish.

Any accurately identified component part that does not provide at least equal "form" properties to that of an original equipment manufacturer supplied part will be fully refunded - no questions asked.

Function:

Excel products are guaranteed to provide function and performance equivalent or better than original equipment components used in the same application.

Any accurately identified component part that does not meet original equipment part functionality or wear life will be refunded fully or on a prorated basis based on the component part.
